## State Department Split May Affect U.S. Policies

By JOHN W. HIGHTOWER  
WASHINGTON, May 13.—A widening split within the State department may vitally affect American foreign policy on almost every major outstanding issue.

This is one of the main problems which will confront Secretary of State Byrnes upon his return from Paris.

One resignation already has resulted, and speculation is rife among departmental insiders that others will follow.

First to go was Col. Alfred McCormick, who quit as organizer of a Central American intelligence unit because he contended his plans were wrecked by opposition within the department.

Speculation about possible future resignations revolves chiefly around Undersecretary of State Dean Acheson and McCormick's former colleague and successor in the intelligence job—William Langer.

**Inter-Department Row**

The struggle appears to be an outgrowth of the traditional fight between the foreign service officers—career men who are the backbone of the American diplomatic system—and comparative newcomers to the field of diplomacy.

The fight has been intensified in part by Byrnes' problem at Paris of trying to work out with the Russians, British and French satisfactory peace settlements for Europe.

His regular political-diplomatic advisers under Assistant Secretary James Dunn recommended that he stand firm on every Russian demand considered to represent an expansion of Russian powers into western Europe.

Byrnes' non-professional advisers under Acheson and Clayton—notably experts on European economy—argued this was likely to create international conflicts. They drew an elaborate memorandum recommending that Byrnes try first to unify Europe by seeking Anglo-Russian agreement to some means of tackling such European-wide economic problems as transportation. After that, they said, should come the work on political issues.

Byrnes, however, took a staff of veteran diplomats to Paris with him, and reports from the conference show that in the main he followed their advice.

## REPORT HITS GEN. FRANCO

### Exile Government Says Spanish Regime Threatens World Peace

(By Associated Press)  
NEW YORK, May 13.—The Spanish government-in-exile said flatly today that the Franco regime is threatening world peace by working on atomic energy with the aid of German scientists.

This statement is contained in one of the documents which Dr. Jose Giral, premier of the government-in-exile, brought from Paris yesterday for presentation to the United Nations sub-committee investigating the Spanish question.

Although the 350-page report still had not been presented to the United Nations this afternoon, it was learned from a reliable source that it contained a statement that atomic research was being carried out in two Spanish cities—Granada and Murcia.

The report, which Giral said would be submitted "within the next 24 hours," also said that:

1. Generalissimo Francisco Franco was maintaining a huge military force, a large part of which was massed on the French frontier.
2. The Franco regime was not only sheltering many notorious Nazis, but actually was employing many former Gestapo agents in its secret police. The report listed the names of some of these.
3. Franco was violating human rights by "tortures, terrorism and cruelties" in Spanish jails and concentration camps.

Giral said he would present the report directly to Trygve Lie, secretary-general of the United Nations.

## Big Four Accentuate the Negative in Treaty Talks

More "didn'ts" than "dids" came out of the Big Four foreign ministers' Paris parley to draft peace treaties for the Axis satellites as shown on the map above. In addition to disagreements indicated, the conferees failed to decide on Italian reparations; disposition of former Italian colonies; fate of the Italian fleet; and continued occupation of Italy.

## Most Coal Miners Return To Pits; Rail Shipment Restrictions Lifted

(By Associated Press)  
WASHINGTON, May 13.—Coal-short America breathed somewhat easier today as the bulk of John L. Lewis' 400,000 striking miners—except for holdouts in Pennsylvania—headed back to their pits under a two-week truce.

This was the over-all picture: 1. Restrictions on freight, express and parcel post shipments came off at midnight, hours before the first full crews descended into the mines to end the 42-day shutdown.

2. Other conservation measures—including tight controls over all coal to be produced during the truce—remained in effect.

3. The government prodded miners and operators alike to reach a swift agreement on a new contract, but both sides said privately there was little hope of meeting the Wednesday deadline fixed by President Truman.

4. The senate turned its full attention to writing a strike control bill.

The attitude of some 30,000 Pennsylvania miners introduced a jarring note into Lewis' back-to-work appeal. They voted to abide by their traditional "no contract, no work" policy.

**Output Controlled**

The Solid Fuels administration assumed control of the entire output of the truce period, originally estimated at from 20,000,000 to 25,000,000 tons.

The agency gave top priority to railroads, utilities, laundries, hospitals, food processing plants, dairies, bakeries and refrigeration plants. They will get daily needs plus a 20-day reserve.

In the next preferential class will be industrial users, who will receive actual daily requirements and nothing more. Domestic consumers in distress or hardship will form a third group with preferred claims.

The coal contract negotiations still were deadlocked on Lewis' claim for \$3,000,000 in back holiday pay.

Government Conciliator Edward F. McGrady said the Sabbath conferences netted "talk."

Both sides, meanwhile, kept a close watch on today's developments on Capitol Hill.

There was move to attach an anti-royalty provision to the house-approved Case bill and hurry it toward final congressional approval was sparked by Senator George (D-Ga.).

## RULE 58 NAZIS MUST HANG FOR WAR ATROCITIES

(By Associated Press)  
DAUCHAU, Germany, May 13.—A general military court today sentenced 58 operators of the notorious Mauthausen extermination camp to hang. Three others were given life terms.

The 61 defendants were sentenced after the American court found them guilty of murdering thousands of victims imprisoned by the Nazis in persecution campaigns.

The court called the defendants one by one to hear their doom. The parade lasted 45 minutes.

August Ekbruber, gauleiter of the upper Danube region and dictator of much of upper Austria during the Nazi regime, took his sentence without emotion.

Other defendants turned white. Some had to be helped from the courtroom by guards.

This largest of all mass war crimes trials will be followed, probably at the end of the week, by the trial of 75 Nazi SS men for the massacre of American soldiers at Malmeldy, Belgium, during the battle of the Ardennes bulge in the winter of 1944-45.

### Wheat Pinch Forces Big Mill At Minneapolis To Shut Down

(By Associated Press)  
WASHINGTON, May 13.—The wheat pinch began to hurt at home today with one big flour mill closed as President Truman called in Herbert Hoover for the first of a series of talks that may answer this question:

Will a resort to wartime food rationing—with bread added to the list for the first time in American history—be necessary to solve the world famine crisis?

Those in favor of such a step gained powerful new support with word that Stabilization Director Chester Bowles plans to urge it upon Mr. Truman unless the present dark outlook brightens quickly.

Bowles' suggestion, if it is made, will call for action by August.

While Hoover remained silent on returning from his seven-week, 35,000-mile globe girdling food study yesterday, no one expected his report to Mr. Truman today to cast any optimism on the global picture.

The former president made the survey at the chief executive's request. He is honorary chairman of the famine emergency committee.

**Pillsbury Mill Closes**

On the domestic scene, meanwhile, the closing of Pillsbury's "A" mill at Minneapolis stood out as a grim reminder that the shortage of wheat can well make deep inroads into American eating habits.

Unable to obtain grain for the first time in its 66-year history, the mill shut down Saturday night.

Since May 1 all flour mills in the country have been limited to a maximum of 21 days' wheat supplies. Many had less than that amount, and the government's action in giving a 30-day loan on sales to the government shut off any chance for the millers to augment their dwindling stocks.

Hence others appear certain to follow the Pillsbury lead.

How long flour stocks will hold out until bakers and housewives begin to feel the squeeze remains problematical.

Mr. Truman has said repeatedly he will not hesitate to order wartime rationing restored if such action becomes essential.

## Jap War Crimes Counsel Defends Surrender Terms

By DUANE HENNESSY  
TOYKO, May 13.—Argument that Japan did not surrender unconditionally and does not have to obey every Allied command was presented today to the Far East military tribunal by the chief defense counsel for Japan's major war criminals.

Attorney Ichiro Kiyose's challenge that the court lacks authority to try the 28 defendants on 55 counts was taken under advisement as the tribunal adjourned until Tuesday morning.

The Allies' chief prosecutor, Joseph B. Keenan, labeled Kiyose's argument as the "height of absurdity" and offered documentary evidence that Japan's surrender was "utterly without condition."

Kiyose said that in giving the tribunal jurisdiction over crimes against peace and crimes against humanity "General MacArthur is exercising authority which he does not possess and the Japanese people are not bound to obey that order."

Japan's top statesmen, Kiyose said, agreed to surrender in the belief they would not be prosecuted as war criminals.

The attorney declared that in the surrender last September Japan recognized that she would obey orders and directives of the Allied powers but only those in accordance with the Potsdam declaration.

Today's session of the tribunal was held especially to hear Kiyose's challenge. The trial is set to begin June 3.

## A Two-Week Reprieve

Announcing that the union's 250-man policy committee had endorsed the decision as a contribution to the nation's economy, John L. Lewis has ordered his United Mine Workers to go back to work during a two-week truce. As far as the nation's economy is concerned, it is a two-week reprieve of a death sentence. The nation is not grateful, only surprised.

A reprieve is not a cancellation. The death sentence still stands. One union leader controlling workers in a key industry can make or break the United States. Mr. Lewis has staged a convincing demonstration. There may be worse to come, unless he gets what he wants, which seems to be a government-dictated settlement with corresponding adjustments in the price control structure. Mr. Lewis has removed all doubt that he intends to rule or ruin.

Woodrow Wilson, trying to avert a coal strike called for Nov. 1, 1919, said: "From whatever angle the subject may be viewed, it is apparent that such a strike . . . would be the most far-reaching plan ever presented in this country to limit the facilities of production and distribution of a necessity of life, and thus indirectly to restrict the production and distribution of all necessities of life. A strike under these circumstances is not only unjustifiable, it is unlawful. . . . I cannot believe that any right of any American worker needs for its protection the taking of this extraordinary step, and I am convinced that when the time and manner are considered, it constitutes a fundamental attack, which is wrong both morally and legally, upon the rights of society and upon the welfare of our country."

The coal strike in 1919 was called anyway. Then, as now, the nation's economy was at the mercy of one union. Then, as now, that one union was the personal instrumentality of John L. Lewis. After the 1919-1920 strike, he rose from vice president to president and has held that office continuously for 26 years.

## More Where That Came From

Senate approval of the British loan had been a foregone conclusion, yet the actual vote and transfer of the issue to the House, which probably will follow the Senate's lead, sharpen awareness of the implications of this transaction.

The French government, meanwhile, has been able to negotiate a financial deal whereby it will get three-quarters of a billion dollars from the Export-Import Bank, \$100,000,000 worth of ships, cancellation of lend-lease and an indefinite amount of surplus property.

Since such transactions proceed from the assumption that the United States can well afford them and there is plenty more where that came from if it's needed, it is reasonable to expect that Washington should take the lead in explaining that they are in reality a kind of subsidy for Britain and France from the new world. Whatever sum may be earmarked now is only a beginning. Billions more will be called for once the obligation to subsidize the British and French has been accepted.

The obligation can be performed, of course, only through creation of wealth in the United States. Every dollar must come out of a taxpayer's income or out of a citizen's savings. However important it may be to "invest" in principles, they pay no monetary interest. Every additional dollar of commitments abroad is, in other words, a dollar's worth of reasons why the United States must get into the swing of wealth-creation. The battle of production for war has become the battle of production for peace.

## Brown Shirts, White Sheets

Reported revival of the Ku Klux Klan in Georgia may be only a regional freak of human nature. But experience warns it may be more.

Reaction clothes itself in a white sheet in the United States. The uniform in Germany was a brown shirt, in Italy a black shirt. But there is no difference in the other manifestations.

There are persecution of minorities, after-dark rituals, night-riding and terror. Men are not very original.

Confronted with more excitement than is good for them, as in war, they seek refuge in the companionship of their own kind. Those who find comfort in religion go to church. Those who look for it in recreation flock to sports contests, resorts, clubs, gambling dens. Baseball and racing are setting new attendance records. Betting was never so great. Night clubs are gold mines. Church attendance is high.

But there are other kinds of Americans seeking the companionship of their kind. Some are the mentally-arrested citizens who never have grasped the principles of a free society of equals. Knowing little, they profess to feel much. Their emotional excess leads them to terror and violence under cover of darkness. They are the Ku Kluxers, authors of one of the blackest chapters in American history. The KKK may not come back this time, but its potential members have forgotten nothing, learned nothing since they came back the last time.

## Official Word From Sidney

Since the smoke and dust of the great election battle of 1944 settled, not much has been heard from Sidney Hillman, the labor-political boss with headquarters in New York City. There have been occasional notices of his goings and comings, including renewal of various European contacts, but none of those ringing declarations that kept his admirers pepped up in the heat of battle two years ago.

In a manner of speaking, it is good to have some official word from Sidney out this way, where voters' contact with the head strategists of CIO-P.A.C. are

few and far between. Sidney says Ohioans will be required by CIO-P.A.C. to vote for James W. Huffman for U. S. senator in November, instead of John W. Bricker. The organization previously had required Ohioans to vote for Marvin C. Harrison instead of Senator Huffman in the Democratic primary, but something slipped up and Huffman got the nomination. Sidney has to make the best of the situation.

Unfortunately, so does Huffman, who knows what New York strategists of CIO-P.A.C. are not likely to admit they know even if they find out—that their stamp of approval is not the prize they wish it were for a politician trying to win votes and influence people in Ohio.

Lack of Vitamin C Cause of Scurvy

By HERMAN N. BUNDESEN, M.D.

THERE is no reason why anybody in this day and age should have scurvy, a disease which in times past so often proved fatal to sailors on long voyages or soldiers held for months in beleaguered towns where they were unable to get fresh food.

Then, this disorder was a mystery. Medical science had not yet been able to trace its many symptoms, such as tenderness of the muscles, spongy gums, bleeding in the skin and progressive weakness, to the lack of one small element in the diet.

## Vitamin C Lack

Today, we know not only that it is caused by lack of vitamin C but that administration of proper amounts of this same substance will cure or prevent it entirely. Thus, it is a pity that so many cases of scurvy still occur, particularly among babies, because of failure to supply them with enough of this essential vitamin.

Dr. Mark F. Osterlin of Michigan noted 24 babies with scurvy during 1943 and 1944. Of a total of 68 babies with scurvy seen by him in a seven-year period, 7 were under six months of age, 58 between six months and a year, and 3 were more than a year old.

Scurvy, then, is a disease that occurs most frequently during the latter half of the first year of life. At this time the baby is likely to be receiving a milk mixture without getting enough vitamin C from such foods as orange juice, tomato juice, and vegetables.

## Tablet Form

Of the 68 cases of scurvy seen by Dr. Osterlin, 40 of the infants had neither orange juice, nor tomato juice, nor were they given vitamin C or ascorbic acid in tablet form. Four of the babies refused to take the orange juice or vomited it. Twenty-four had received insufficient amounts of orange juice,

getting only one teaspoonful a day, or the juice of one orange two or three times a week.

In one case, the mother had heated the orange juice before giving it to the baby. Of course, heating orange juice causes the vitamin C in it to combine with oxygen in the air and thus destroy most of it.

It is also interesting to note that only two of the babies had been breastfed and these for only two or three months. The breastfed baby receives vitamin C in the breast milk.

## Babies' Symptoms

The symptoms which these infants had consisted of irritability, pain on movement, poor appetite, vomiting, diarrhea and sore mouth. When the babies were examined it was found that there were tenderness of the muscles, some swelling and bleeding of the gums, paleness and bleeding into the skin.

A change in the bones known as scorbutic rosary was present in most cases. This consisted of a sharp ridge which could be felt on the ribs along the front of the chest.

Doctors know the importance of starting foods in the infant's diet during the first month of life, which will prevent scurvy. Even though the baby is breastfed and gets some vitamin C in the mother's milk, additional vitamin C should be given in the form of orange juice or tomato juice and, of course, all bottle-fed babies must receive one or the other of these foods.

If for some reason the baby is unable to take enough orange juice or tomato juice, tablets of vitamin C prescribed by the physician can be utilized. There is no good reason why any baby should have scurvy.

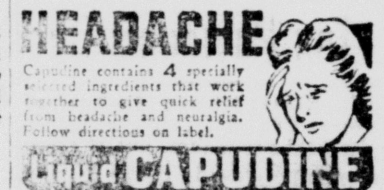

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

Thus, it is a pity that so many cases of scurvy still occur, particularly among babies, because of failure to supply them with enough of this essential vitamin.

Dr. Mark F. Osterlin of Michigan noted 24 babies with scurvy during 1943 and 1944. Of a total of 68 babies with scurvy seen by him in a seven-year period, 7 were under six months of age, 58 between six months and a year, and 3 were more than a year old.

Scurvy, then, is a disease that occurs most frequently during the latter half of the first year of life. At this time the baby is likely to be receiving a milk mixture without getting enough vitamin C from such foods as orange juice, tomato juice, and vegetables.

## Tablet Form

Of the 68 cases of scurvy seen by Dr. Osterlin, 40 of the infants had neither orange juice, nor tomato juice, nor were they given vitamin C or ascorbic acid in tablet form. Four of the babies refused to take the orange juice or vomited it. Twenty-four had received insufficient amounts of orange juice,

getting only one teaspoonful a day, or the juice of one orange two or three times a week.

In one case, the mother had heated the orange juice before giving it to the baby. Of course, heating orange juice causes the vitamin C in it to combine with oxygen in the air and thus destroy most of it.

It is also interesting to note that only two of the babies had been breastfed and these for only two or three months. The breastfed baby receives vitamin C in the breast milk.

## Babies' Symptoms

The symptoms which these infants had consisted of irritability, pain on movement, poor appetite, vomiting, diarrhea and sore mouth. When the babies were examined it was found that there were tenderness of the muscles, some swelling and bleeding of the gums, paleness and bleeding into the skin.

A change in the bones known as scorbutic rosary was present in most cases. This consisted of a sharp ridge which could be felt on the ribs along the front of the chest.

Doctors know the importance of starting foods in the infant's diet during the first month of life, which will prevent scurvy. Even though the baby is breastfed and gets some vitamin C in the mother's milk, additional vitamin C should be given in the form of orange juice or tomato juice and, of course, all bottle-fed babies must receive one or the other of these foods.

If for some reason the baby is unable to take enough orange juice or tomato juice, tablets of vitamin C prescribed by the physician can be utilized. There is no good reason why any baby should have scurvy.

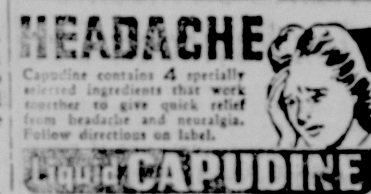

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

## Lots Of Pears

The "French Gardener," published in 1858, mentions 315 varieties of pears, among them being "Ladies' Thigh," "The Younger Brother," "Burnt Cat," "Onionet," "Gooey's Pill," and "Winter Bagpipe."

## Miss Bradley, Clifford Lowry Wed Saturday In St. Paul's

In one of the most beautifully appointed weddings of the season, Miss Maxine Bradley, daughter of Mr. and Mrs. Eugene C. Bradley of Woodland ave., became the bride of Clifford E. The mass songs were sung by a trio composed of Misses Margaret Entriiken, Anna Sweeney and Carmen McNicol. Miss Sara Colman was accompanist for the service.

The ushers, Carl Skowran, brother-in-law of the groom, and Walter Skowran, led the procession. The bridesmaids, Miss Angela Hilber of Lakewood and Miss Theresa Christofa of Salem, preceded the maid of honor, Miss Janet Hebo of Monaca, Pa., cousin of the bride.

The bride was escorted to the altar by her father, who gave her in marriage. They met the groom and his best man, William Lowry, a brother, at the altar.

The long sleeves were pointed at the wrist and the full skirt ended in a long train. She wore a finger-tie veil, which fell from a lace tiara. She wore her aunt's pearl lavalliere and carried a blue handkerchief. Her bouquet of Killarney roses, stephanotis and orchids was showered with white sweetpeas and maiden hair fern.

Miss Hebo was gowned in a creation of pale blue broadcloth taffeta, fashioned with a sweetheart neckline, three-quarter length sleeves and a fitted bodice attached to a full skirt. She wore a half hat of blue net and a short veil. She carried a bouquet of white sweetpeas and maiden hair fern.

The bridesmaids dresses were of the same material and fashioned identical to Miss Hebo's. Miss Hilber was in pale yellow and carried a bouquet of pink sweetpeas and maiden hair fern, while Miss Christofa in light rose carried white and pink sweetpeas and maiden hair fern. They wore half hats and flowers to harmonize.

For her daughter's wedding, Mrs. Bradley wore a green floral print, with black accessories, while Mrs. Lowry was costumed in aqua and black. They wore corsages of brandywine roses.

The bride presented her attendants necklaces with bracelets to match. The groom gave his best man a watch chain with a gold knife, while the ushers received cigarette lighters.

## NET MAKES NEWS IN FORMAL FASHION CIRCLES

Left, sky blue net dance frock; center, black net skirt, striped bodice; right, net wedding dress.

Net is making news this season when formality is sweeping the fashion field. Sheer black net is used for sophisticated dinner gowns, many of which have throat high necklines as background for jewelry. Other dinner gowns are in combinations of colors. The three gowns shown above are made of Tessa-gon, which has the practical advantage of its interlocking mesh which prevents sagging. The dance dress, left, is in sky blue net and the puffed sleeves contradict the sophisticated bare shoulders. The bouffant skirt is bound to be a favorite with the stag line. The wedding dress has filmy net floating from the elongated lace bodice and net circling from a halo of orange blossoms. The dress will serve for future occasions without the bridal veil, and will make a lovely white dinner gown. Gossamer black net makes the swirling skirt of the dinner gown, center. The bodice is in stripes with ledge shoulders and jewel neckline.

The long sleeves were pointed at the wrist and the full skirt ended in a long train. She wore a finger-tip veil, which fell from a lace tiara. She wore her aunt's pearl lavalier and carried a blue handkerchief. Her bouquet of Killarney roses, stephanotis and orchids was showered with white sweetpeas and maiden hair fern.

## NET MAKES NEWS IN FORMAL FASHION CIRCLES

Left, sky blue net dance frock; center, black net skirt, striped bodice; right, net wedding dress.

Net is making news this season when formality is sweeping the fashion field. Sheer black net is used for sophisticated dinner gowns, many of which have throat high necklines as background for jewelry. Other dinner gowns are in combinations of colors. The three gowns shown above are made of Texagon, which has the practical advantage of its interlocking mesh which prevents sagging. The dance dress, left, is in sky blue net and the puffed sleeves contradict the sophisticated bare shoulders. The bouffant skirt is bound to be a favorite with the stag line. The wedding dress has filmy net floating from the elongated lace bodice and net circling from a halo of orange blossoms. The dress will serve for future occasions without the bridal veil, and will make a lovely white dinner gown. Gossamer black net makes the swirling skirt of the dinner gown, center. The bodice is in stripes with ledge shoulders and jewel neckline.

### COOKED A FINE DINNER; THEN THREW IT TO DOG

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of bloot, had headaches, felt worn out and was badly constipated. Finally she got ERB-HELP and says she now eats everything in sight and digests it perfectly. Bowels are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this New Compound.

ERB-HELP contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Lease Drug Stores.

# Cardinals No Longer Considered Cinch to Win National League Flag As Pitching Falters

## Ability Of Hurlers Down Since Mort Cooper Left To Work With New York Giants

By JOE REICHLER,  
Associated Press Sports Writer

It is a moot question today whether collapse of the St. Louis Cardinal pitching staff is due chiefly to the absence of Walker Cooper, star catcher sold to the New York Giants, or to return of pre-war stars to the big leagues.

But it is no secret now that (1) the Redbird pitching staff is not all it's cracked up to be; (2) the Cards will not walk into the National league championship as predicted originally.

When Cooper was sold for \$175,000, opinion was that he would add at least 20 victories to the Giants' mound crew. Apparently no one considered how many games his absence must cost the Cards.

With one month of the 1946 campaign gone, St. Louis' two top hurlers last year—Harry (The Cat) Brecheen (15-4) and Charlie (Red) Barrett (23-12)—have won but one game between them.

Each failed yesterday to last and Cincinnati swept a double bill 4-2 and 5-1 to move into a third place tie with the Boston Braves and Chicago Cubs. The Cards tumbled from first to second place, one and one half games behind the Brooklyn Dodgers.

The Reds, meantime, got masterful hurling from veteran Bucky Walters and Freshman Ewell Blackwell.

Each gained his first triumph, Walters holding the Cards to six scattered hits in the 10-inning opener and Blackwell permitting only three safeties while striking out 10 in the nightcap.

The Detroit Tigers have gone quietly about putting together a streak of their own to boost themselves back into the American league flag chase.

Dizzy Trout pitched the Bengals to their seventh straight victory with a 4-1, seven-hit performance over the Chicago White Sox before 43,726 paying customers.

Trout's win came at the expense of 45-year-old Ted Lyons, who was pitching his 27th consecutive complete game for the Sox over a three-year span.

The league-leading Red Sox resumed their winning ways by defeating the New York Yankees 3-1 in the rubber game of their three-game series before a tremendous turnout of 68,193, second highest single game crowd in baseball history.

Only the July 1, 1932 crowd of 73,592 which helped inaugurate Cleveland's municipal stadium was larger.

Yesterday's game was a pitching duel between Boston's Mickey Harris and New York's Spud Chandler. Southpaw Harris held the Yanks to three hits in registering his sixth triumph without a defeat and Boston's 22nd in 26 games. Defeat left the Yankees five and a half games behind the Sox.

Brooklyn ran its unbeaten string at home to eight by pummeling the Philadelphia Phils, 13-4. Southpaw Vic Lombardi

notched his fourth victory aided by homers by Ed Stevens and Augie Galan.

The Boston Braves slapped down the New York Giants twice, 6-5 and 7-2, to drop the Otis men into the second division. The Braves came from behind to win the opener in 10 innings when relief pitcher Ken Trinkle walked Bill Lee with the bases full.

The Cubs whipped the seventh place Pittsburgh Pirates 3-1 behind Claude Passeau's seven-hit pitching and moved within three games of the top.

Washington's Senators gained an even break with the Philadelphia Athletics, winning the nightcap 3-1 after dropping the opener 6-4.

Stan Spence, whose homer in the first game had been in no avail, smacked three doubles in the second game and drove in the winning run.

The St. Louis Browns extended Bobby Feller to 10 innings before succumbing to Cleveland 4-3 in the opener, and then came back to scalp the Indians 9-3. Feller fanned 12 to raise his season's strike-out total to 71.

## "Odeus IV", Brian Pigeon, Wins Race

Otis Brian's "Odeus IV" took first place in the Salem Pigeon club's 150-mile race from Columbus yesterday, averaging 1359.74 yards per minute in notching her second triumph of the young season. She also topped last week's race from Mount Vernon.

"Odeus III", also from Brian's loft, arrived eight seconds behind the winner while Charles' Cezard's "Chocolate Hen" placed third.

"Odeus IV" led 40 Salem birds back to their home lofts, reaching a speed of 47 miles per hour at times with the aid of a south wind.

Yesterday's results:

Owner	Bird	Yds. Per Min.
Brian	Odeus IV	1359.74
Brian	Odeus III	1338.67
Cozad	Chocolate Hen	1337.97
Titley	B-B	1335.561
Cozad	Five By Five	1335.555
Paxson	Red Rover	1330.53
L. Sprout	Que Ball	1288.51
B. Sprout	Old Man	1218.40
Rudbaugh	To Late	963.10

## Salem Tracksters To Meet South Tuesday

Coach Fred Cope's track team, getting ready for the N.E.O. district meet here Saturday, will meet Youngstown South in a dual meet at Rely stadium at 4 p. m. tomorrow.

Cope's crew has competed against Youngstown in the McKinley relays at Canton two weeks ago, finishing a place ahead of South in a six-team affair.

Bruce Haman, well-known district football and basketball official, is South coach.

## Diamond Dust

By DON E. BEATTIE, News Sports Editor

IT REMAINS TO BE SEEN whether any of the American league teams can crack the terrific defense Mullins has in its mound ace, Johnny Zines.

His showing in two games in Salem's first week of the 1946 season is nothing short of astounding. Besides hurling two no-hitters—something that has only been done once before in Salem leagues—Zines pulled the trick twice in a row, and in the first two games to boot.

Looking over the record, Zines has, in 14 innings, pitched to 48 batters. Three were given walks (in his opening game), 21 were struck out and only four hitters in the two games were able to lift the ball into the air and to the outfield.

His string of scoreless innings has now run to seven, as the Eagles scored three runs in the final frame of the first game on two walks and an outfield error.

ZINES' PERFORMANCES glitter among league records in a manner that rivals those of Dale Ritchie two years ago and Eddie Miller back in the days of the powerful United Cigar outfit.

Ritchie is the only other hurler who has two no-hitters to his credit in one season. One of those was a perfect game, posted against Sinclair in 1945. Zines is the only man to hurl two in a row. He and Jack King, who blanked the Sip N Bite for five innings, are also the only hurlers who ever turned the trick here on opening day.

ALL THIS GOES to make things appear mighty difficult for the other eight teams in the American loop. There isn't a pitcher in either league with the speed that Zines possesses—there can be no question about that.

His control is greatly improved over the Zines local fans knew before the war. In calmness and workhorse ability, he has gained by leaps and bounds.

Besides this, Zines has the leading American league club in hitting to back up his offerings.

The Mullins outfit is hitting 296 in two games, a pace that will be extremely hard to beat with a hurler like Mullins to oppose.

In fielding Mullins looked poor in the first try and then tightened up to put the finishing touches to Zines' perfect game Thursday.

One of the improvements in Mullins' original lineup is the addition of First Baseman Pete "Farmer" Bennett, a slugging left hander who saw a lot of softball action while overseas with Patton's army.

Bennett played first base for The News two years ago and hit well over 300. He drives a hard long ball and feasts on speed pitching.

# Cardinals No Longer Considered Cinch to Win National League Flag As Pitching Falters

## Ability Of Hurlers Down Since Mort Cooper Left To Work With New York Giants

By JOE REICHLER, Associated Press Sports Writer

It is a moot question today whether collapse of the St. Louis Cardinal pitching staff is due chiefly to the absence of Walker Cooper, star catcher sold to the New York Giants, or to return of pre-war stars to the big leagues.

But it is no secret now that (1) the Redbird pitching staff is not all it's cracked up to be; (2) the Cards will not walk into the National league championship as predicted originally.

When Cooper was sold for \$175,000, opinion was that he would add at least 20 victories to the Giants mound crew. Apparently no one considered how many games his absence must cost the Cards.

With one month of the 1946 campaign gone, St. Louis' two top hurlers last year—Harry (The Cat) Brecheen (15-4) and Charlie (Red) Barrett (23-12)—have won but one game between them.

Each failed yesterday to last and Cincinnati swept a double bill 4-2 and 5-1 to move into a third place tie with the Boston Braves and Chicago Cubs. The Cards tumbled from first to second place, and one half game behind the Brooklyn Dodgers.

The Reds, meantime, got masterful hurling from Veteran Bucky Walters and Freshman Ewell Blackwell.

Each gained his first triumph, Walters holding the Cards to six scattered hits in the 10-inning opener and Blackwell permitting only three safeties while striking out 10 in the nightcap.

The Detroit Tigers have gone quietly about putting together a streak of their own to boost themselves back into the American league flag chase.

Dizzy Trout pitched the Bengals to their seventh straight yesterday with a 4-1, seven-hit performance over the Chicago White Sox before 43,726 paying customers.

Trout's win came at the expense of 45-year-old Ted Lyons, who was pitching his 27th consecutive complete game for the Sox over a three-year span.

The league-leading Red Sox resumed their winning ways by defeating the New York Yankees 3-1 in the rubber game of their three-game series before a tremendous turnout of 68,193, second highest single game crowd in baseball history.

Only the July 1, 1932 crowd of 73,592 which helped inaugurate Cleveland's municipal stadium was larger.

Yesterday's game was a pitching duel between Boston's Mickey Harris and New York's Spud Chandler. Southpaw Harris held the Yanks to three hits in registering his sixth triumph without a defeat and Boston's 22nd in 26 games. Defeat left the Yanks five and a half games behind the Sox.

Brooklyn ran its unbeaten string at home to eight by pummeling the Philadelphia Phils, 13-4. Southpaw Vic Lombardi

### Apple Crop In Mahoning, Columbiana Counties Poor

The apple crop in Mahoning and Columbiana counties, as well as other northeastern Ohio areas, hit by spring frosts, has been cut about 90 per cent.

Orchardists say the 10 per cent crop will be the result of the second, or delayed, blossoming.

They estimate a normal crop in Columbiana and Mahoning counties at 750,000 bushels, of which 150,000 usually would be harvested in the Salem-Greenford district.

While the outlook is poor for the orchardists, it probably will not be so bad for the consumers, the growers say, because the crop will be abundant in southern Ohio, Virginia, West Virginia, Maryland and eastern Pennsylvania.

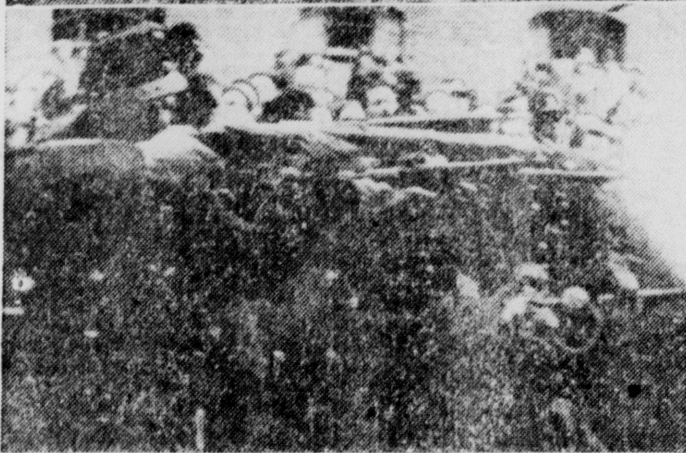

### Food Collection Drive Begun In United States

NEW YORK, May 13 — The Emergency Food Collection drive to obtain money and canned food for the relief of starving millions abroad began today throughout the nation.

Lee Marshall, executive director of the drive, and Fiorello H. La Guardia, director - general of UNRRA, both have said that cash gifts would be more welcome and useful than gifts of canned food, because UNRRA can buy at wholesale prices.

Canned food, however, will be accepted and shipped, they said. The campaign will be organized in 16,000 cities and towns.

## TOP NAZI IN HUNGARY PAYS PRICE

ONE OF HUNGARY'S TOP NAZIS, former Minister of Interior Andor Jarosz, pays with his life before a firing squad in Budapest after being convicted as a war criminal responsible for the massacre of 600,000 Jews and acts of terror against Czech resistance forces. ### Will Keep Sugar Ration At 15 Pounds Per Person

WASHINGTON, May 13—The Commerce department estimated today the annual household sugar ration of 15 pounds a person can be maintained this year and that there will be a larger allowance for home canning.

It reported civilian sugar supplies this year will be 341,000 tons larger than the 1945 total. But it said this year's 5,433,000 ton allocation for civilian consumption would have to cover "the greatly increased industrial sugar ration and the addition of 8,000,000 veterans to the number of civilian users."

COLUMBUS, May 13—George D. Sherbon, the five-foot-three Coshocton tavern keeper who testified that he didn't know a strip tease and lewd movie were going on in his place the night of Feb. 21, lost his beer and wine license today.

The state liquor board announced the revocation effective May 11, the day after he was given a hearing on a charge of exhibiting immoral pictures. He contended that the Coshocton Boosters club staged the show in his tavern just outside of Coshocton and that he was unable to see over the heads of the crowd to find out what was being shown.

The extra members appear to be perfectly developed. At top, his mother, Mrs. Jeanne Diaz, obligingly lifts his legs to display his toes. ## LIVERPOOL BUSES ARE IDLE 10TH DAY

EAST LIVERPOOL, May 13 — Transportation in this area was paralyzed for the tenth day today following collapse of negotiations between the Valley Motor Transit Co. and 120 AFL-affiliated drivers.

Among localities without public transportation as a result of the stoppage are East Liverpool, Steubenville and Wellsville, O., and Chester and Newell, W. Va. A line from Steubenville to Beaver, Pa., also is not operating.

The drivers quit work May 3 in a demand for an hourly wage boost from 85 cents to \$1.20. The company offered a five per cent increase in "take home" pay, with the stipulation that the increase be effective until an arbitrator should make a different award.

The drivers insist that any award made by Federal Conciliator Samuel Young should be retroactive to May 1, when the old contract expired.

## Cleveland Stockyards Affected By Strike

CLEVELAND, May 13—A strike of 33 AFL-yardmen closed the Cleveland union stockyards today for the first time in its 60 years of operation and cut off an estimated 50 per cent of the city's meat supply.

A. Z. Baker, president of the stockyard company, said no attempt would be made to open until the dispute was settled.

The yardmen, who unload, handle and feed the livestock, are members of the Amalgamated Meat Cutters and Butcher Workmen of America. They left their jobs at 6 a. m. to further demands for a 16-cent hourly wage increase.

The stockyards president said the company had offered a 11½-cent hourly increase and had given the workers a 4½-cent wage boost last December.

Albert Sik, secretary of the union local, said the strikers now average between 77 and 98 cents an hour.

## Open Canned Food Drive

### Food Collection Drive Begun In United States

NEW YORK, May 13.—The Emergency Food Collection drive to obtain money and canned food for the relief of starving millions abroad began today throughout the nation.

Lee Marshall, executive director of the drive, and Fiorella H. La Guardia, director - general of UNRRA, both have said that cash gifts would be more welcome and useful than gifts of canned food—because UNRRA can buy at wholesale prices.

Canned food, however, will be accepted and shipped, they said. The campaign will be organized in 16,000 cities and towns.

The state liquor board announced the revocation, effective May 11, the day after he was given a hearing on a charge of exhibiting immoral pictures. ## LIVERPOOL BUSES ARE IDLE 10TH DAY

EAST LIVERPOOL, May 13.—Transportation in this area was paralyzed for the tenth day today following collapse of negotiations between the Valley Motor Transit Co. and 120 AFL-affiliated drivers.

Among localities without public transportation as a result of the stoppage are East Liverpool, Steubenville and Wellsville, O., and Chester and Newell, W. Va. A line from Steubenville to Beaver, Pa., also is not operating.

The drivers quit work May 3 in a demand for an hourly wage boost from 86 cents to \$1.20. The company offered a five per cent increase in "take home" pay, with the stipulation that the increase be effective until an arbitrator should make a different award.

The drivers insist that any award made by Federal Conciliator Samuel Young should be retroactive to May 1, when the old contract expired.

## Cleveland Stockyards Affected By Strike

CLEVELAND, May 13.—A strike of 33 AFL-yardmen closed the Cleveland union stockyards today for the first time in its 60 years of operation and cut off an estimated 50 per cent of the city's meat supply.

A. Z. Baker, president of the stockyard company, said no attempt would be made to open until the dispute was settled.

The yardmen, who unload, handle and feed the livestock, are members of the Amalgamated Meat Cutters and Butcher Workmen of America. They left their jobs at 6 a. m. to further demands for a 16-cent hourly wage increase.

The stockyards president said the company had offered a 11½-cent hourly increase and had given the workers a 4½-cent wage boost last December.

Albert Six, secretary of the union local, said the strikers now average between 77 and 98 cents an hour.
